---

I'll follow up with Tracy she was going to give Isabel a call. Essentially we can still move forward with the acquisition. Congress may decide it's fine or months from now come back and say it's not fine terminate the contract. For now the only thing I need from you is the RFQ and current status. I refuse to send anything else and I told Tracy that (she was perfectly fine with it). Once I talk with Tracy or Isabel I'll send an email with all of us on it and our response.

Are we holding off on this requirement until you all meet with Congressional and Public Affairs?

I am a little worried moving forward with so much opposition. Thanks!

Delfina

Delfina – Roxanne and I have completed our independent reviews of the 9 quotes received and we each completed an evaluation sheet for each quote. Our collective recommendation for award based on our evaluations is Ardelle. Do you need us to scan and send you our evaluation sheets or do we just retain them in our own files?

Thank you for your support in this effort; we look forward to your assisting us with the next steps.
